Introduction

This document shows different activities done in the smartlab or the near ecosystem.

A short overview is given intrinsically in the image-Video „Eigene Ideen im Smartlab verwirklichen“ (s.a. Fig. 0.1)

"Eigene Ideen im Smartlab verwirklichen"
URL: https://www.youtube.com/embed/h5bxMwJhbHY

Description: Image Video of the Smartlab

The document is divided in the following sections:

- Teaching Videos
- Public Live Casts (in future - soob coming)
- Project Videos (in future - soon coming)
- Privatissimunm

Teaching Videos describes the different machines in the smartlab.

Project Videos contains videos regarding the individual projects done mostly by students in the smartlab.

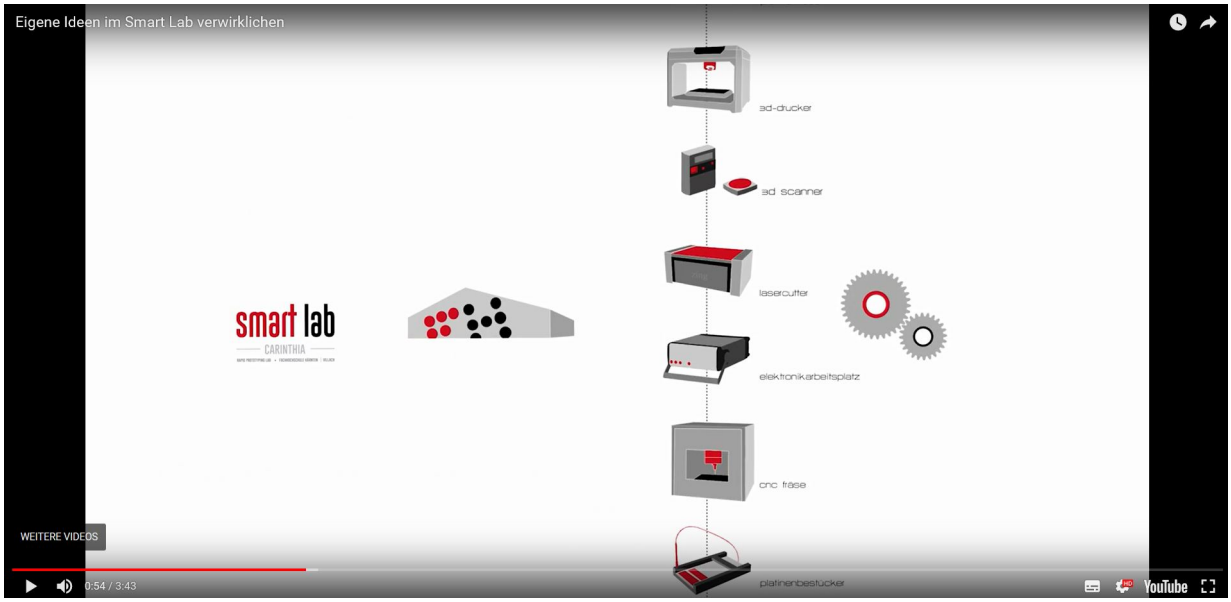

Fig. 0.1: Smartlab - overview of machine - types

Public Live Casts contains videos that shall show in a live cast manner, activities or typical possible things that can be done in the smartlab by nearly everyone.

Privatissimun contains the live workflow of the project work, which casually documents the student's project work in the smartlab and around.

1 Teaching-Videos

1.1 Lasercutting

1. "Mit dem Lasercutter im Smartlab schneiden und gravieren - erste Beispiele" URL: https://youtu.be/sNek_bmBhno

   Description: It is shown how to cut a simple geometry, a star and how to engrave a photo in the smartlab with the Epilog Laser.
